2nd April 1996

Dear Clive,

I really must thank you most sincerely for your contribution towards making our event such a success on Monday 25th March 1996.

It was an exceptionally tall order for you to accomplish and I must say that I was rather concerned about trying to mix humour into a business seminar, especially prior to an Annual General Meeting!

Your skill and presentation technique, together with superb timing and just the right amount of humour, won over what must be regarded as a very difficult "audience".

Driving instructors are renowned to be difficult en masse.

Thank you once again for livening up what could have been a bland event.

With kind regards.

Yours sincerely,

Graham R.J. Fryer
